In the Abstract:

Please substitute the following paragraph for the pending abstract:

A system, method, and article of manufacture is provided for tracking the distribution of content electronically. First, an electronic storage medium tracking identifier is incorporated onto an electronic storage medium and stored on a database. Next, a package tracking identifier is situated onto a package in which the electronic storage medium is stored. The electronic storage medium is then tracked while being shipped between various entities using the tracking identifier on the package.

In the Specification:

Please substitute the following paragraph for the pending paragraph on page 56, line 10:
